ROHIT

iOS & Flutter Developer | Swift, UIKit, Dart

+91 6284885838 | rc11102003@gmail.com | Ludhiana, Punjab, India
Portfolio: rohitiosdev.vercel.app | LinkedIn: linkedin.com/in/rohit5838

PROFESSIONAL SUMMARY

iOS and Flutter developer with hands-on experience building production mobile applications. Native iOS development with Swift and UIKit using MVVM, currently at C+A Global, and cross-platform development with Flutter and Dart. Contributed to HP Sprocket (Flutter with native iOS integrations) and Kodak Step Print (native iOS with Bluetooth printer connectivity). Experienced with Firebase Authentication, push notifications, Crashlytics, localization, app permissions, and hardware communication, with a strong focus on debugging and performance optimization.

TECHNICAL SKILLS

Programming Languages: Swift, Dart

iOS Development: Native iOS, UIKit, Xcode, WebView, Localization, Push Notifications

Flutter Development: Flutter, Dart, GetX (state management), Custom UI, Reusable Widgets, Native iOS Integrations

Architecture & Design Patterns: MVVM

Backend Services & Integrations: Firebase Authentication, Google Sign-In, Facebook Login, Apple Sign-In, Firebase Crashlytics, API Integration

Mobile Capabilities: Bluetooth Connectivity, Hardware Device Communication, App Permissions (Bluetooth, Camera, Photos, Notifications), Debugging & Troubleshooting, Performance Optimization

Development Tools & Version Control: Git, GitHub, GitLab, Android Studio, VS Code, Figma, Postman

WORK EXPERIENCE

Junior iOS Developer Feb 2026 – Present
C+A Global | Mohali, Punjab

- Develop, test, and maintain iOS applications with a focus on performance, scalability, and user experience.
- Build responsive, user-friendly UI components that improve application usability.
- Debug and troubleshoot issues and optimize application behavior to ensure smooth functionality.
- Collaborate with designers, developers, and testers to design and deliver new features.

Mobile App Development Trainee (Intern) Jun 2025 – Dec 2025
Live Deftsoft Informatics Pvt Ltd | Mohali, Punjab

- Developed, tested, and maintained mobile applications for iOS.
- Wrote clean, well-documented code following coding standards and best practices.
- Worked with cross-functional teams to define, design, and ship new features.

RELEVANT PROJECTS

HP Sprocket Flutter & Native iOS

- Contributed to a cross-platform Flutter application with native iOS integrations.
- Implemented Firebase Authentication with Google Sign-In, Facebook Login, and Apple Sign-In.
- Integrated push notifications, localization, Firebase Crashlytics, and WebView functionality.
- Developed custom UI components, popup flows, and reusable widgets.
- Managed app permissions, debugging, and performance optimization; delivered iOS-specific implementations.

Kodak Step Print (Kodak Step Printer App) Native iOS

- Contributed to a native iOS app for printer connectivity, firmware management, and user experience enhancements.
- Implemented firmware update workflows for printer devices to improve performance and stability.
- Developed popup flows and custom alert logic for clear, seamless user interactions.
- Handled Bluetooth, Camera, Photos, and Notifications permissions; enhanced printer communication workflows and application stability.

EDUCATION

Bachelor of Engineering, Information Technology Aug 2021 – Jun 2025
Chandigarh University | Mohali, Punjab

Intermediate, New G.M.T Public School, Ludhiana 2020 – 2021

Matriculation, New G.M.T Public School, Ludhiana 2018 – 2019
